SPRAY CONTROL UNIT

TYPE: FO-ERS

- >> Suitable for up to 6 spray guns
- >> Spray valves and test pushbuttons remain in place
- >> Up to 20 recipes can be stored
Each spray gun is independent adjustable
- >> Easy and simple installation – plug and socket
Installation can be done by the customer himself
Installation causes only short downtime
- >> Installation procedure:
 - Remove old Fortron control unit
 - Install adapter
 - Attach new control unit Fo-Ers to the adapter
 - Install new encoder in the machine
 - Connect all cables to the adapter
 - Adjust sensor to the tube
 - Pressing the push button to zero the encoder
 - Adjust spray range – machine ready to start
- >> Spare parts in stock at sprimag

Attention

Fortron – Spray control is not longer available

Reparation is not possible any more!
